NOVEMBER 2015

## Librarian leaves 25 year legacy of love

As the manager of the St. Matthews branch of the Louisville Free Public Library (LFPL), Dustin Strong was known for his infectious smile and his kindness. The 44-year-old librarian died Sept. 2, leaving those who worked with him or were served by him with stories to tell about his genuine love of others.

Assistant Librarian Kelly Brothers remembered a library neighbor who mentioned her ailing fig tree to Strong. "While the family was out of town, Dustin walked over to their house and staked and pruned their fig tree," said Brothers. "It's just the kind of thing he would do."

Strong was a life-long Louisville resident and a graduate of Bellarmine University. Starting as a student, he worked in the Bellarmine library system for 10 years, during which time he attended the University of Kentucky, earning a Master of Library and Information Science degree. While at Bellarmine, an article written about Strong dubbed him the "nicest man on earth."

Strong spent the last 15 years of his life devoting himself to serving the patrons and staff of LFPL. He

held management positions at the Crescent Hill, Western, Portland, Southwest, Main, Iroquois, Westport, and St. Matthews branches. While at Portland, Strong started a chess club, a spelling bee, a poetry

*Dustin Strong died Sept. 2, leaving a legacy of generosity and love.*

contest, and was even made the grand marshal of the Portland Parade.

"Even after he came to St. Matthews, he frequently went to lunch with patrons from other branches where he worked," said Brothers. "He was wonderful at creating relationships."

One of the things Brothers will miss most about Strong is his calm presence. "Sometimes when you deal with the public, things can get hectic. Dustin had a way of looking at things from the patron's point of view, rather than thinking about the work the problem might create for him."

Not only did Strong make a lasting impression on patrons and colleagues, he inspired City Hall employees with his willing attitude. Councilwoman Mary Jo Nay regularly used Strong as a source of information for the City's newsletter and website. "Dustin was a fine man -- a good soul. He always had a smile and was willing to help anyone with a need," she said. "When I last spoke to him, he was sitting alongside a patron, helping him do research."

City Clerk Susan Clark couldn't agree more. "Dustin Strong was an outstanding manager at the Eline branch. He happily provided service to every person because of his genuine desire to be helpful. His cheerful disposition, fun attitude, and expertise will forever be missed."

*Continued on p. 4*

## A Message From...

The Oct. 31 deadline for a 40% discount on your real estate property taxes is rapidly approaching. Residents may want to contact their mortgage companies to

remind them of the date to take advantage of the discount. Contact City Hall if you are unsure if the tax has been paid. You may choose to use your savings to support

local businesses as you shop for the holidays. Reinvesting your savings strengthens the local economy as, together, we build a stronger St. Matthews.

## Sign up for Reach Alert

Signing up for Reach Alert, the City's instant communication system, takes only a few minutes and is free. Through Reach Alert, residents are made aware of emergency situations or unsafe conditions,

as well as community service notifications if requested.

Notification options include text, email, and/or phone. The City does not expect to send out messages daily, but only as situations dictate.

Sign up online at [www.reachalert.com](http://www.reachalert.com) or by calling 1-877-307-9313. A link may also be found on the City's website at [www.stmatthewsky.gov](http://www.stmatthewsky.gov).

## Hometown History - c. 1920

Does anyone remember this building and its location? The picture was taken around 1920, and would have made Benjamin Franklin proud. See p. 11 to solve this issue's Hometown History mystery.

### Louisville Gas & Electric

**502-589-1444**

Fast path options are: 1-1-1 (gas) and 1-1-2 (electric).

### Emergency Contact Numbers

### Louisville Water Company

**502-583-6610**

To report emergencies like water main breaks or broken fire hydrants.

# Easy Being Green

In 2013 the City of St. Matthews developed an ADA Sidewalk Transition Plan to bring existing sidewalks into

compliance with Federal mandates under the Americans with Disabilities Act. As part of that plan, St. Matthews has budgeted \$100,000 annually to eliminate tripping hazards, replace damaged sidewalks, and reconstruct sidewalk ramps.

To carry out its plan and remain fiscally responsible, the City has contracted with Precision Concrete Cutting to use its patented approach to eliminate tripping hazards. Rather than pouring new sidewalk panels,

the company cuts the existing concrete to create a smooth walkway.

In addition to reducing the cost by more than 70%, this approach is environmentally friendly and efficient. Instead of grinding the concrete and sending the dust particles into the air, Precision uses a vacuum cutting method that catches the minimal dust created by the process. The dust and concrete waste is then taken to a facility and recycled. The process can be completed in a short time, reducing the impact to residents.

To date, the City has used this process on Eline, Fairlawn, and Lola from Lexington Road to Willis Avenue. A total of 119 tripping

hazards, costing \$6,506.25, were eliminated in a day and a half.

In addition to being green, Precision is one of the highest employers of military veterans.

The final phase of the work in these areas will include replacing broken or damaged sidewalks as well as adding ramps to various intersections. Given the successful results and obvious monetary savings, the City will be continuing this work on additional streets.

**Recycling is collected every other week on the same day as trash on weeks highlighted in red. Holidays are marked in blue and will delay recycling and trash one day.**

## Free Medicare seminar to be held Nov. 16

A free Medicare seminar will be conducted by Medicare Simplified, an organization with a mission to educate individuals about Medicare options. Medicare Simplified does not sell insurance. The program is

designed for individuals over 65 or turning 65 within a year. If you are already enrolled in Medicare, this is a great time to review your options for 2016.

The program will be held Nov. 16, 6-8 p.m., at the St.

Matthews Community Center, 310 Ten Pin Lane. Though the seminar is free of charge, reservations are required due to material preparation and meeting room accommodation. Please call 513-382-8533 to make a reservation.

# Police Beat

## Padded gloves added to safety equipment

After two St. Matthews police officers were stuck by needles in the last few months, needle resistant gloves were added to the department's cadre of safety equipment. With heroin use becoming a major problem, officers who frisk persons are in danger of being pricked or stuck by needles potentially used by someone with HIV, Hepatitis, or other infectious diseases.

The gloves are thick and called "puncture protective." Though not completely resistant, the extra layer of material on the finger tips does add a layer of protection. At a cost of \$50 a pair, the gloves were purchased using forfeiture funds, not tax dollars. Forfeiture funds are confiscated monies awarded to SMPD when a drug suspect is convicted.

Not only police officers but St. Matthews residents can be at risk from needles left lying on the ground. If you see a needle on the ground, do not touch it – call SMPD to come dispose of it safely.

## Safety concerns

Pedestrians and cyclists should wear light or reflective clothing to be easily seen, especially at night. Pedestrians should use sidewalks where they are provided. If you must walk in the street, walk facing oncoming vehicular traffic and wear clothing that makes you clearly visible.

Cars parked on streets should be facing the same direction as the flow of traffic on their side and should not be parked closer than 30 feet from any intersection. No car should block or interfere with the vehicle access of a neighbor's driveway.

*St. Matthews police officers and staff vow to serve and protect the public every day.*

## Librarian legacy

*Continued from p. 1*

Fittingly, Strong's Sept. 12 memorial service was held at LFPL's Main branch. Those wishing to make a donation in Strong's name may do so through the Dustin Strong Memorial Fund, c/o The

Louisville Nature Center, 3745 Illinois Avenue, 40213. Funds will be used for environmental education books and videos for both the Center and for LFPL to honor Strong's love of native plants, trees, the sound of birds,

and the sights of butterflies and bees.

Wondering what became of the neighbor's fig tree? It's thriving, like so many others touched by Dustin Strong's extraordinary life.

## Crime Buzz

### Handling panhandlers

Though everyone wants to help those in need, there are better ways to assist the homeless than to give money to panhandlers. It is not uncommon for panhandlers to use the money they collect for alcohol and drugs. Those who do need food, shelter, and other assistance may obtain that help through local social services.

While in a vehicle, do not roll down your window or engage in conversation with those standing on the side of the road pan-handling. You could be liable if a panhandler gets struck by a vehicle while coming to you for money or if someone rear-ends your stopped vehicle. Some of the ploys used by panhandlers include needing money for a sick or pregnant spouse, for gas, or for an "important" phone call. Others claim to be veterans in need of a job. Imagination is their only limitation.

If you see a panhandler, call the St. Matthews Police Department at 893-9000 as soon as possible. Give

a description of the panhandler, the location, time of occurrence, and the direction of travel if the panhandler left the area. Help the police stop this fraud.

Please note that if the person has a true need, the police department will be able to direct them to the appropriate agency for assistance.

### Crime prevention

October is National Crime Prevention Month. With days getting darker much earlier, be sure that security lighting is working properly. Put fresh bulbs in porch lights and yard lights. Use the last of the comfortable weather to trim back overgrown bushes leaving a clear view to windows. Thieves look for places to enter homes where they can be hidden from view.

Check the locks on your storm door so that you have a safe barrier between you and anyone coming to your door. Don't welcome solicitors who knock after dusk. St. Matthews Ordinance 14-09 does not allow solicitors after 7 p.m. nor on any Sunday or national holiday. Beware of persons posing as trick-or-

treaters who may use Halloween night for criminal purposes.

### Free house watches

SMPD provides free house watches for vacations and other times residents must be away from home. Just telephone SMPD at 893-9000 to schedule.

### ID This Person

Check out IDthisperson.com to help identify

criminals anonymously. You may receive a \$25 reward. New images are posted every day of unidentified suspects.

### SMPD Anonymous Tip Line

If you have seen something suspicious, you can alert the police anonymously by calling 498-CLUE (2583), Option 1. To report a crime in progress, call SMPD directly at 893-9000. You do not have to give your name.

## Code Words

Watching squirrels stockpile nuts to prepare for the winter reminds us that now is the time to store our campers, boats, and trailers. Section 78.09 of the City Code explains what is allowed when storing such vehicles. This is also a good time to make sure any inoperable vehicles are

removed before the winter months. Codes regarding abandoned or inoperable vehicles are found in Section 90: "The accumulation and storage of one or more of such abandoned or junked vehicles as defined in 90.01 on private property shall be deemed a nuisance." If you are in doubt

whether your vehicle falls into this category, check out Code 90.01.

To read these codes in their entirety, go to [stmatthewsky.gov](http://stmatthewsky.gov), Government tab, and click on the link below "Ordinances". Look for Titles VII and IX.

# Seasons Greetings

## Halloween in Brown Park

It wouldn't be a St. Matthews Halloween without the annual festival in Brown Park. Come join this family-friendly fun fest on Saturday, Oct. 24 from

11 a.m. to 2 p.m. Brought to you by the Chamber and City of St. Matthews, this FREE event features more than 60 business-sponsored trick-or-treat stations set up throughout the park. Other features include bounce houses, hay rides, and games.

Trick-or-Treating starts at 11:30 a.m. and ends at 1:30 p.m. The trail for trick-or-treating runs into the woods on the outside longer path, while

the hayride runs on the inside path.

Brown Park is located on Kresge Way next to Baptist Health

hospital. Visitors to the event may park directly across from the hospital at 4007 Kresge Way, on property that is part of Baptist Health Louisville.

## Alexander Hamilton Historical Society of Kentucky

The Alexander Hamilton Historical Society of Kentucky meets on the second floor of the St. Matthews City Hall. All meetings are free and begin at 10:30 a.m.

Upcoming meeting topics:

**Nov. 21**

University of Louisville  
Professor Dr. Charles Dobbs

will review *Lafayette* by Harlow Unger. Lafayette was a French aristocrat who not only joined

Washington in fighting the British during the American Revolution, but also played a role in

diplomatic and economic issues.

**Dec. 19**

The Honorable Judge Michael O. McDonald will speak.

**Jan. 16**

University of Louisville  
Professor Dr. John McLeod will speak.

## The Woman's Club of St. Matthews

The Woman's Club of St. Matthews meets at the St. Matthews Community Center on 2<sup>nd</sup> and 4<sup>th</sup> Mondays from September through May at 11:00 a.m.

After awarding scholarships totaling \$22,029.56 over the summer, the club recently donated \$1,500 to St. Matthews Elementary for the

purchase of computers. The club also donates \$700 each month to St. Matthews Area Ministries, all without burdensome fundraising.

Besides philanthropy projects, club members enjoy day excursions to interesting locations in and around the Kentuckiana area and celebrate special occasions

such as the Kentucky Derby, holidays, and the club's anniversary date in May, which is combined with a luncheon to honor each year's scholarship recipients.

For more information on becoming a member of WCSM or free programs, please call the club's president, Beverly Potts, at 896-6575.

## Seasons Greetings (cont.)

### Leaf collection kicks into gear soon

Leaf collection begins the last full week of October or the first week in November, depending upon the amount of leaves that have fallen.

To participate in the leaf pickup program, leaves should be raked to the edge of the front of the property but not into the street. Do no pile leaves over cement pyramids or mingle limbs and

branches in the leaves. These items have damaged equipment. Crews will remove leaves along the street, utilizing a vacuum system. Each area is scheduled to be covered only once; however, should time and weather permit, a possible second sweep may occur, if necessary.

If you have placed your leaves to the street edge of your property and have been missed by our crews, please contact City Hall at 895-9444.

Leaves can also be disposed of at the time of your normally scheduled garbage pickup. Remember that yard waste **MUST** be contained in paper bags or reusable waste containers. Free "Yard Waste" stickers for your trash containers can be picked up at St. Matthews City Hall during regular business hours.

For a map of pickup areas, go to [stmatthewsky.gov](http://stmatthewsky.gov), Services, Public Works, Leaf Collection. Dated notification signs will be posted in each area prior to pickup.

### Light Up St. Matthews

Be part of a decades-old tradition by joining your neighbors on Saturday, Dec. 5, for the annual lighting of Brown Park.

The event begins at 4 p.m. with cookies and hot chocolate, a live DJ, pictures with Santa and Mrs. Claus, horse drawn carriage rides through the park, activities for the kids, and fun for the entire family. All activities start under the big

tent. The celebration concludes at 6 p.m. when Santa throws the switch that lights up the park, officially starting St. Matthews' holiday season. The festive display will remain lit until after the New Year to allow visitors to the park plenty of time to enjoy them.

Brown Park is located on Kresge Way next to Baptist Health hospital. Visitors to the event may

park directly across from the hospital at 4007 Kresge Way, on property that is part of the Baptist Health Louisville campus.

### Be prepared for snow removal

The City of St. Matthews operates a comprehensive snow removal program. All streets within the city receive snow removal service. Naturally, main thoroughfares receive attention first, then all residential streets are treated. During this time,

we ask that all vehicles be moved off the roads to allow snow plows and other equipment to maneuver safely and properly clear your roads.

In the winter, trash cans left outside can ice up. Do not set your trash out too early and make sure there are lids on them so they don't fill with snow. Rumpke will not pick up iced over containers or containers with garbage frozen to the can.

## Good Neighboring

### Catch basins

Keep catch basin grates clear of leaves and debris. Blocked grates can cause unnecessary flooding.

### Christmas trees

Christmas trees do not have to be cut up. Just place them at the curb on your regularly scheduled collection day.

### Portable storage containers

A permit is required if you want to use a portable storage container. To learn what is allowed and what is required, contact City Hall or go to the City website at [stmatthewsky.gov](http://stmatthewsky.gov) and look under the Business tab under Permits.

### Barking dogs

If a dog is barking incessantly, call St. Matthews Police so that they can verify the barking. Alternatively, you may contact Metro Animal Services at 473-7387. More information regarding animal control may be found under the Services tab on the City website.

### Garbage/recycling cans

Garbage cans and recycling containers should not be set out until 5 p.m. the day before pickup, and containers should be put away the same day they are emptied. Ensure all garbage cans have lids. During snow events or when sidewalks are icy, garbage cans should be set out at the street.

### Appliance/junk pick up

Contact Rumpke at 568-3800 to have your appliances or junk picked up. Visit the City website for details.

### Watch for children

When clocks turn back Sunday, Nov. 1, residents will want to double their efforts to watch for children walking to school or waiting for the bus in the dark. Slow down and look for children standing near or crossing roads.

## Eline Library: Check it out

A complete list of library programming may be found on the City website at [stmatthewsky.gov](http://stmatthewsky.gov).

### For Adults

#### Free Hearing Screening

Suzanne Peterson, Mobile Hearing Practitioner with Miracle-Ear, will be on-site Nov. 10 at 2 p.m. doing hearing screenings. Reservations are required.

#### Healthy Holiday Eating

Valerie Holland of the County Extension Office will host a

presentation on how to maintain a healthy diet during the holiday season on Nov. 19 at 2:30 p.m.

#### eBay for Beginners

Bring your basic or better computer skills and one item you wish to sell to this class where you will learn the basics of buying and selling items on eBay; held Dec. 8 at 2:30 p.m.

#### For Children

##### Friday Dance Party!

Dances will be held Nov. 20 and Dec. 18 at 10:30 a.m.

### Let's Explore Holidays

Explore Thanksgiving, Hanukah, Christmas, and New Year's Eve on Nov. 16, Dec. 7, Dec. 21, and Dec. 29, respectively, at 2:30 p.m. Also join the library gang for some random drop-in crafts and fun on your holiday break on Dec. 22 at 2:30 p.m.

### No Story Time

There will be no Story Times Thanksgiving week (Nov. 25 and 26) or Dec. 23, 24, 30, and 31.

## Hot Off the Press

### Hear the beep where you sleep

Location matters when it comes to your smoke alarm. That's the message behind this year's Fire Prevention Week campaign, "Hear the Beep Where You Sleep. Every Bedroom Needs a Working Smoke Alarm!"

Along with firefighters and safety advocates nationwide, the St. Matthews Fire District is joining forces with the nonprofit National Fire Protection Association (NFPA) to remind local residents about the importance of having working smoke alarms in every bedroom, outside each sleeping area, and on every level of the home, including the basement.

"In a fire, seconds count," said Chief William Seng of the St. Matthews Fire District. "Half of home fire deaths result from fires reported between 11 p.m. and

7 a.m. when most people are asleep. Home smoke alarms can alert people to a fire before it spreads, giving everyone enough time to get out."

According to the latest NFPA research, working smoke alarms cut the chance of dying in a fire in half. Meanwhile, three out of five fire deaths resulted from fires in homes with no smoke alarms or no working smoke alarms.

Interconnect all smoke alarms throughout the home. This way, when one sounds, they all do. Test alarms at least monthly by pushing the test button.

Replace all smoke alarms when they are 10 years old, or sooner if they don't respond properly. Make sure everyone in the home knows the sound of the smoke alarm and understands what to do when they hear it.

If the smoke alarm sounds, get outside and stay outside. Go to your outside meeting place. Call the fire department from outside the home.

Contact the St. Matthews Fire District at 893-7825 to set up an appointment for assistance with a home fire safety inspection, checking for proper smoke alarm operation, or to schedule a smoke alarm installation.

### Stop the robocall invasion

Robocalls have invaded almost every home in the U.S. and the residents of St. Matthews are no exception. A robocall is an automated telephone call that delivers a recorded message.

The Federal Trade Commission (FTC) is taking serious action to reduce Robocalls, and has been working on this global annoyance since 2003. Many of these calls originate in other countries and are often scams meant to con trusting people out of their hard-earned money. Common scams

include someone asking you to send money right away or asking for personal or financial

information. They keep you talking in hopes of getting information from you. There is no need to keep listening – hang up.

Though some people have registered their phones on the Do-Not-Call phone line, the number of robocalls is increasing exponentially, making it difficult to keep up.

For more on avoiding scams, take a look at *Speaking of Scams*, a tipsheet available at [consumer.gov/handouts](http://consumer.gov/handouts). The FTC also wants to hear from you. If you suspect a fraud or scam, tell them online or by phone at 1-877-FTC-HELP. Every complaint makes a difference.

## Your Works at Work

The spring and summer rains have stopped and glimpses of fall are starting to appear. Through it all your Public Works has strived to provide a level of service that is second to none.

This period the following has been accomplished:

### Completed Projects

- Storm debris removed throughout the City from multiple storm drains
- Patched pot holes on many city streets
- Maintained plantings, trimming, watering, and mulch beds throughout the City and various parks
- Completed the clearing and regrading of the existing storm drainage ditches located within the easements of the Camelot area
- Established a pilot project to eliminate tripping hazards for portions of Iola, Fairlawn, and Eline
- Regraded the crushed stone alley between Iola and Oxford (Frankfort to Beverly)
- Installed a French drain at the end of Ormond Road to help reduce ponding water
- Filled in a sinkhole and repaired catch basin on Harris Place
- Installed street name signs, stop signs, and new poles along Macon

### Current Projects

- Began a storm drainage project along Corn Island Court, including 100 feet of storm pipe, 2 catch basins, and the regrading of 170 feet of drainage ditch
- Completed the new parking lot and landscaping and

*Continued top p. 11*

## Neighborways create bike-friendly communities

Been wondering about those bicycle symbols being painted on the streets in your

neighborhood? It's all part of Louisville's "neighborways" project.

This year Louisville began implementing over 100 miles of neighborways (also called bicycle boulevards) on local streets. Neighborways are low-volume streets that have been optimized for bicycle travel through pavement markings, signage, speed regulation, and intersection

crossing treatments. These streets are comfortable and attractive to cyclists with a wide range of abilities and ages but are inconvenient as through routes for automobiles.

Eventually, these roadways will become an essential component of Louisville's overall bicycle network, integrating with bicycle lanes, shared-use paths, and the Louisville Loop.

The initial phases of implementation in Louisville include low-cost, high visibility pavement markings. As funds become available, routes show increased use, and local

neighborhood support builds, the neighborways could evolve to incorporate higher design details such as signage, speed regulation, and traffic reduction. In addition, Louisville's neighborways will be optimized with streetscape design features such as street trees, green infrastructure, and other forms of design to reinforce slower speeds and a positive rider experience.

Implementation of a neighborway system will assist in Louisville's goals to increase ridership, reduce accidents, and provide front door access to a low-stress facility for Louisvillians who bike.

## Your Works

*Continued from p.10*

improvements to Community Park began as well as stream restoration, which is the final stage of the master plan. The City has contracted to improve 2,660 feet of poor quality

stream. Construction is expected to last into February 2016; during construction the walking trail in Community Park will be closed.

### Future Projects

- Finalized the bidding process on Sept. 18 for improvements to a section of Trinity Hills ditch near Elmwood after area was hit hard during summer rain events. Work is expected to begin in October.

- The City will continue to eliminate sidewalk tripping hazards.
- The City is consulting with an engineering firm to analyze 1) the feasibility of installing sidewalks and drainage improvements within the right of way along north Hubbards Lane, and 2) possible drainage improvements for the houses on the east side of Girard Drive from Westport Road to Girard Court.

## Park Place

The stream restoration work in Community Center Park has begun. The walking trails in the north section of the park between the Watterson Expressway and Beechwood Village will be

closed until February or March. Walkers may use the walking trails at Draut Park, Brown Park, or Warwick Park.

Residents who are not familiar with St.

Matthews' parks, may find detailed information along with park photos on the City website and/or use the Call St. Matthews info system 638-4STM (4786), Option 3, Option 3, to hear information about any of the city parks.

## Hometown History - 2015

### THEN

*The 12-foot by 16-foot frame structure in the picture was the St. Matthews Post Office, located on the east side of Chenoweth Lane between Westport Road and the railroad tracks. According to St. Matthews – The Crossroads of Beargrass by Samuel W. Thomas, Louis Bauer was postmaster in the area until 1915 followed by William Farris, who passed on his duties to his son.*

### NOW

*The property is now occupied by Holzheimer Park, which was originally a part of the Heinrich (Henry) Holzheimer farm. Holzheimer, a native of Germany, was an early settler of the St. Matthews area. The park was rededicated by the City of St. Matthews in 2009.*
