June 2019

Dear City representative,

We appreciate the opportunity to provide your community with dependable, weekly collection of trash, yard waste and recycling.

As an industry leader, Rumpke wants to make it easy for our customers to properly dispose of material; however, we do have to set some parameters on what we accept in each program to ensure environmental compliance and safety of our employees, equipment and facilities.

Recently, we've experienced issues with high levels of contamination in yard waste. **Only shrubbery, grass, weeds, leaves and sticks are accepted in Rumpke's yard waste program. If material other than yard waste is found in yard waste containers, our team will not collect until the contaminated material has been removed.**

As a reminder, yard waste must be placed in compostable paper bags or containers clearly marked as yard waste. Yard waste placed at the curb in plastic bags will not be collected. If customers were provided a Rumpke yard waste container, all material must be placed inside for collection.

To help spread the word, please consider sharing this information in an upcoming newsletter or via a social media post to inform residents about proper yard waste disposal. Our corporate communications team is happy to assist with messaging, if needed.

We appreciate your assistance to help reduce yard waste contamination. If you have questions about how to properly dispose of an item, please contact Chris Pierce at 502.664.1776.

Sincerely,

*Rumpke Waste & Recycling*
